## STORM MOVING FROM THE NORTH DISPELS HEAT

HIGH WINDS AND SHOWERS RE-  
SULT—EASTERN HOT WAVE  
WILL BE BROKEN.

WASHINGTON, May 20.—All the way from the Rocky Mountains to the Atlantic coast a hot wave stretched throughout the day with temperature almost breaking records in various cities and causing numerous prostrations.

From out of the North Pacific region is coming a storm with considerably cooler weather in its wake. This storm moved east over the northern plains states, bringing high winds and showers. It is scheduled to reach the Mississippi valley tomorrow. It will be followed, Professor Bowle said, "by a general break in the hot wave over the Mississippi and plains states within the next thirty-six or forty-eight hours."

Washington and Richmond were yesterday the hottest places in the weather map, their official record running up to 95 degrees against Washington's seasonal record breaking 94 a week ago. Baltimore, Louisville and other cities, however, were close competitors. Thermometers in the shade here recorded 103.

### Cleveland's Record Day.

CLEVELAND, Ohio, May 20.—With a maximum temperature of 95 in the street and 86 degrees recorded by the weather bureau instruments high up in a skyscraper, Cleveland experienced the hottest day in May yesterday since 1879.

### Chicago Prostrations.

CHICAGO, May 20.—Four deaths and more than a score of prostrations resulted yesterday from the extreme heat. The thermometer showed 92 degrees at 4 o'clock yesterday afternoon, the highest point the mercury ever has reached this early in the summer since the establishment of the weather bureau.

### Pittsburg Swelters.

PITTSBURG, Pa., May 20.—This was the hottest May day since 1880. Eighty-seven degrees is the announcement of the weather man, but down on the streets unofficial thermometers registered from 92 to 95 degrees.

## JEROME BOYS MAKE THINGS VERY LIVELY

Jack P. White, Fred Simard and Andrew Edgar, boys from Jerome, Arizona, arrived in Tonopah yesterday and proceeded to show the local boys a lively pace. Jack White is an old-timer here, having worked in nearly all the mines of the camp and, taking Simard and Edgar in tow, called on an old friend, Albert Kelly, of the Belmont bar, and the popping of corks made one think of Fourth of July.

Before the boys were through three cases of wine had been disposed of.

## UNABLE TO SELL STOCK IN GREAT BASEBALL LEAGUE

CONTROVERSY WITH HEADS OF  
BOSTON NATIONAL LEAGUE  
ENDS IN COURT.

BOSTON, May 20.—In the controversy between President William Hepburn Russell and Vice President Page of the Boston National League Baseball club, Judge Pierce yesterday found that Page was not entitled to an injunction restraining Russell from voting his stock in the club to amend the by-laws.

Mr. Page charged that President Russell intended to increase the directorate from four to five members, and maintained that this violated a contract he had with Russell for the purchase of part of Russell's 765 shares of stock.

In sustaining a demurrer by President Russell, Judge Pierce ruled that the contract was illegal in part, but found at the same time that it restrains Russell from disposing of stock on which Page had an option to purchase.

## ONE MAN KILLED BY GAS; ANOTHER SUB-CONSCIOUS

Inquest Is Held At Luning Over Re-  
mains of Alfred Anderson---Lee Gor-  
man Was Found Unconscious.

Harry H. Atkinson returned this morning from the inquest held at Luning over the remains of Alfred Anderson, the man who lost his life in a tunnel at the property of the Wagner-Azurite Mining company, near Atwood. On arriving at Luning the coroner found that the main witness was at the mine and in company with Deputy Mine Inspector Gaughan left Luning for Atwood at 4 o'clock in the afternoon, arriving at the property of the Wagner-Azurite Mining company at 11 o'clock at night. The deposition of two witnesses was taken, and after an hour and a half of rest, they returned to Luning, held the inquest and caught the train for Goldfield.

The following account of the accident was brought out at the inquest:

On the property of the Wagner-Azurite Mining company is a tunnel 1000 feet in length, and is still being pushed ahead with air drills. The day of the accident a round of 12 holes and a "mucker" had been fired in the tunnel at 4 o'clock in the afternoon. At 9 o'clock that night Superintendent J. S. Dillabaugh went into the tunnel and discovered that four of the holes had "hootlegged." He looked up the miners that had fired the round and asked them if they would go back and shoot the "hootlegs." They refused to, saying there were "off shift." Mr. Dillabaugh then asked Anderson if he would shoot

the holes and offered him 50 cents to compensate him for the trouble. Anderson volunteered and, accompanied by a man named Lee Gorman, went into the tunnel. The next morning both men were missed and a search was started. In the tunnel Gorman was found in a sub-conscious condition and revived and at the face of the drift the body of Anderson was found cold in death. Gorman says that on entering the tunnel they noticed the air was bad, but did not think that it would overcome them. Anderson was loading the holes and had them finished with the exception of one, when Gorman spoke to him. He tried to turn around but fell on the muck pile, and Gorman endeavored to drag him out, but he himself fell down three feet and, being weak, decided to go for a car. He had only gone a short distance when he fell.

Anderson was a native of Sweden, 55 years of age, and has a sister living at Willmar, Minn. He is supposed to have two brothers somewhere in this country.

The deputy mine inspector found that the tunnel had a ventilating pipe, but that the fan was out of order and that a pipe from the compressor had been run into the ventilator, but was working poorly. It was the opinion of Mr. Gaughan that the 16 sticks of 60 per cent powder that had been fired in the "mucker" was the cause of the ever-accumulation of gases.

## POOR PITCHING GIVEN AS CAUSE OF HEAVY HITTING

HEAVY HITTING THIS SEASON  
FAULT OF PITCHERS NOT  
CORK BASEBALL.

PHILADELPHIA, Pa., May 20.—Hank O'Day, veteran National league umpire, yesterday declared that the heavy hitting in the big leagues is not due to the new cork centered ball, but is directly due to the poor work of the pitchers. When shown the dispatch from Chicago saying the new ball would be modified to make it dead, he said:

"What do they want? Before, the cry was against pitchers' battles; now there is too much hitting. The fault lies entirely with the pitchers. I don't remember in many years of experience a period when pitchers were so much 'off' as they are this year. The ball has nothing at all to do with it. The ball is all right."

## "THE PRIESTESS OF CARTHAGE" FOR TOMORROW NIGHT

## DIVORCE SUIT ARGUED BEFORE DISTRICT COURT

A night session was held in the district court last night and the case before the court was that of Horace S. Hubbard for divorce from his wife. Hubbard charged desertion and his wife filed an answer charging cruelty and asking for permanent alimony in the sum of \$5000 and for temporary alimony. The argument last night was in regard to the temporary alimony. The plaintiff charged his wife with adultery and this was the ground upon which the temporary alimony was sought.

The court ruled that the defendant was entitled to the temporary alimony in order to make her defense and ordered the plaintiff to pay \$100 attorney's fees, cost of court and the defendant's expenses from Cripple Creek, including hotel and other expenses necessary for her to appear in the district court. George Thatcher appeared for the plaintiff and J. K. Chambers for the defendant.

## GYMNASIUM IS NOW CROWDED EVERY EVENING

NEW PROFESSOR IS A GOOD  
ORGANIZER—LARGE CLASS-  
ES BEING FORMED.

Prof. G. W. Braun, formerly of the Olympic club of San Francisco, and now in charge of the gymnasium of the volunteer firemen, is creating a great deal of interest in that institution, the gym being crowded in the evening, and quite a few are to be found there in the afternoons.

The professor has organized a juvenile class for Monday, Wednesday and Friday afternoons from 4 to 5:30, and the boys respond with enthusiasm. On these same days evening classes will be organized for gentlemen and later on a ladies' class will be formed.

Today an electric bath is being installed in addition to the hot and cold showers. Indoor baseball is very popular at the gym and the handball court is in demand. Professor Braun is very accommodating and keeps the gym open day and night for those who desire the showers. Mr. Braun lives next door to the hall and if any of the members desire a bath late at night he will get up and prepare it.

Wherever he may locate, only the best wishes of Tonopah people for his success is wished him.

## MUSICAL TREAT AT THE BUTLER FOR NEXT WEEK

POPULAR HOUSE WILL HAVE AN  
ACT THAT HAS BEEN A SEN-  
SATION IN FRISCO.

Lovers of good music will have their cup of happiness filled to the brim if they go to the Butler theater Monday night. The ever alive manager of Tonopah's oldest, and it is safe to say, most popular vaudeville and moving-picture theater, has gone to a great deal of extra trouble and expense to secure an act that has set all San Francisco talking. The All Novelty Trio are young gentlemen who play real music on novel instruments and sing classical and popular songs in a manner that always makes their auditors cry loudly for more and more. Mr. Jones, the baritone soloist of the trio, possesses a voice of beautiful tone and quality. De Harport, another one of the trio, plays classical solos on a peculiar instrument called the Mexican "solitaire." The tone of the instrument is similar to the Italian harp, but much richer. They also play mandolins, banjos, guitars, banjoes, etc.

Besides this, the harmony singing of the three is not only beautiful but inspiring their voices blending as true and rich as the tones of a pipe organ. Taken all in all, it is sure to be the greatest vaudeville attraction that has ever been in Tonopah. The management assures the public that this clever trio will have an entire change of songs and instrumental music each evening.
